Review Of 2021 Annual Immigration Report To Parliament

Despite there supposedly being a global pandemic in 2020, the population replacement continues in Canada. However, it had to be slowed down (this year) to at least make things plausible. The mask is a nice touch: we need a constant reminder about this health crisis, otherwise we'd forget.

1. Mass LEGAL Immigration In Canada

Despite what many think, ***LEGAL*** immigration into Canada is actually a much larger threat than illegal aliens, given the true scale of the replacement that is happening. What was founded as a European (British) colony is becoming unrecognizable due to forced demographic changes. There are also social, economic, environmental and voting changes to consider. See this Canadian series, and the UN programs for more detail. Politicians, the media, and so-called “experts” have no interest in coming clean on this.

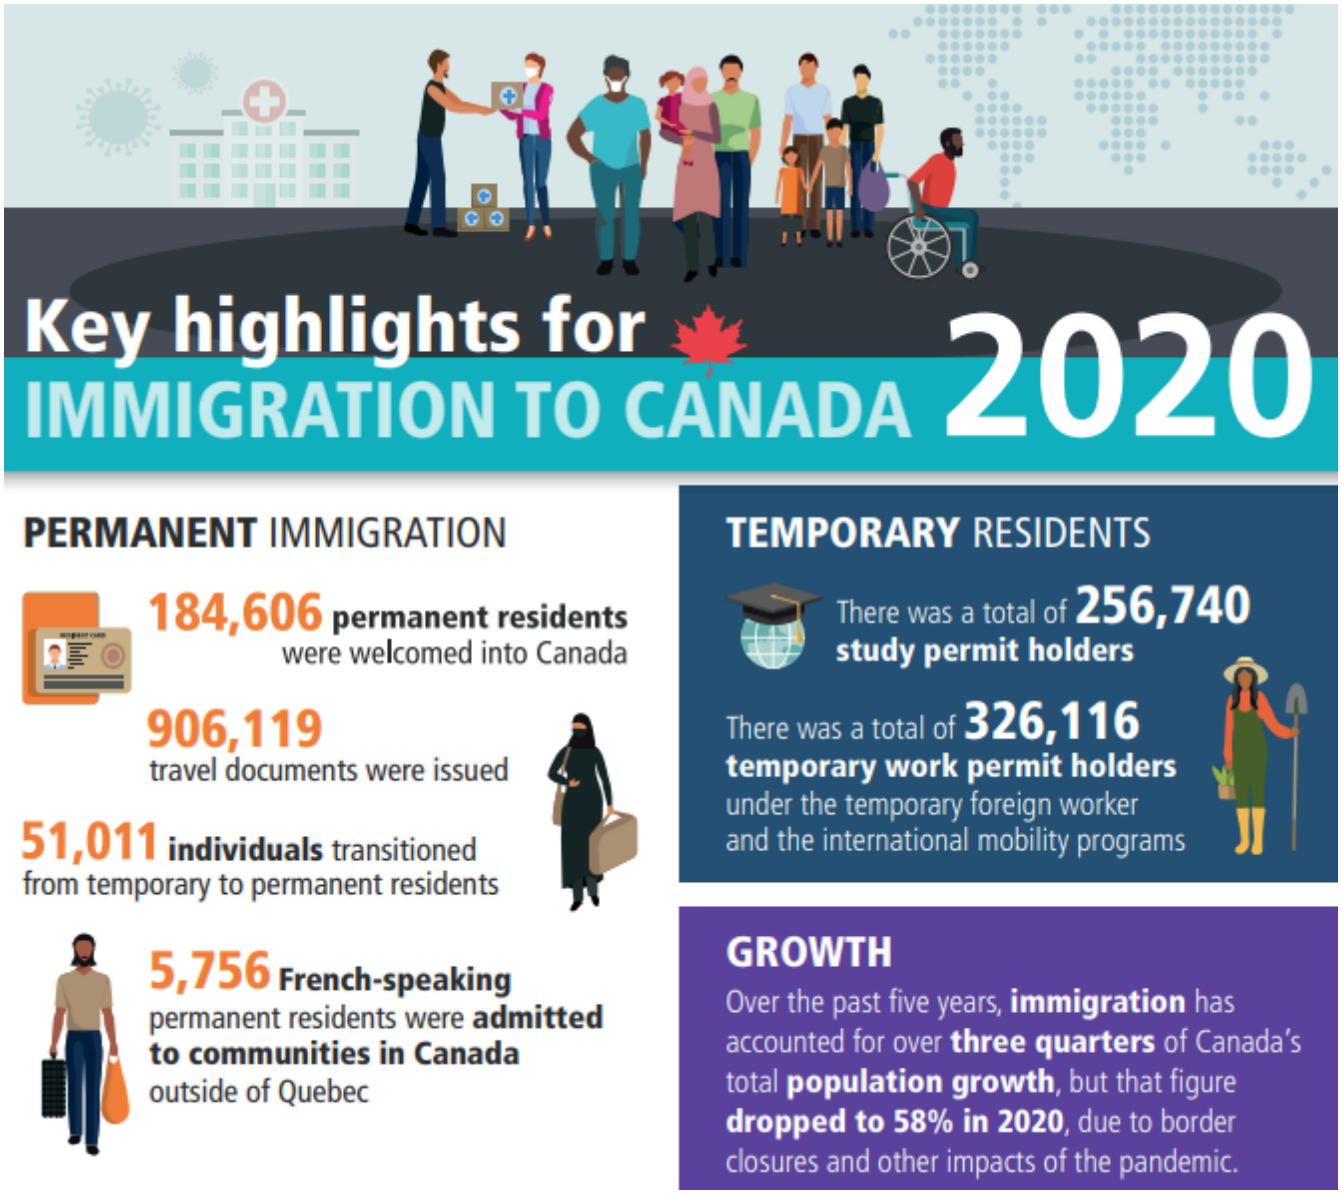
VI. Distribution of Legislative Powers

> Concurrent Powers of Legislation respecting Agriculture, etc.
>
> .
>
> 95 ***In each Province the Legislature may make Laws in relation to Agriculture in the Province, and to Immigration into the Province***; and it is hereby declared that the ***Parliament of Canada may from Time to Time make Laws in relation to Agriculture in all or any of the Provinces***, and to Immigration into all or any of the Provinces; and any Law of the Legislature of a Province relative to Agriculture or to Immigration shall have effect in and for the Province as long and as far only as it is not repugnant to any Act of the Parliament of Canada.

Contrary to popular belief, immigration is largely set by the Provinces. This is laid out in Section 95 of the Constitution. While Ottawa may impose laws from time to time, the understanding seems to be that the Premiers will be mostly the decision makers. While it's understandable to get angry at Trudeau, he's far from the only deserving target.

Additionally, there are talks underway to launch a Municipal Nominee Program, which will allow cities to directly bring people in, and to sponsor their bids to become permanent residents. It's unclear at this point how large it will ultimately be.

4. Key Highlights From The Year 2020



Key highlights for
IMMIGRATION TO CANADA 2020
PERMANENT IMMIGRATION
184,606 permanent residents were welcomed into Canada
906,119 travel documents were issued
51,011 individuals transitioned from temporary to permanent residents
5,756 French-speaking permanent residents were admitted to communities in Canada outside of Quebec
TEMPORARY RESIDENTS
There was a total of 256,740 study permit holders
There was a total of 326,116 temporary work permit holders under the temporary foreign worker and the international mobility programs
GROWTH
Over the past five years, immigration has accounted for over three quarters of Canada's total population growth, but that figure dropped to 58% in 2020, due to border closures and other impacts of the pandemic.

AS stated before, it's not entirely clear how many people are staying after some kind of temporary visa, v.s. how many leave. We also don't have hard data on the "inadmissibles" who don't leave, and on the visitors who overstay. Consequently, take this as a rough estimate:

184,606 new permanent residents
-51,101 temps transitioning to PR
=133,505 new permanent residents brought into Canada

Temporaries Brought Into Canada
256,740 (Student Visas Issued)
+84,609 (Temporary Foreign Worker Program)
+242,130 (International Mobility Program)
= 583,452 (in the temporary classes)

2,044 “inadmissibles” allowed under Rule 24(1) of IRPA
115 “inadmissibles” allowed under Rule 25.2(1) of IRPA

648,789 eTAs (electronic travel authorizations)
257,330 TRV (temporary resident visas)

How many people remained in Canada? Who knows?

The Government brags about expediting work permits for “essential workers”, even as Canada experienced record high unemployment. They even created a program for “refugees” to get accelerated permanent residence if they work in health care settings. This comes at a time when Canadian workers are being let go for refusing the experimental shots.

Foreign students (under a rule change) became exempt from the 20 hour/week work limit that their visas typically imposed. Supposedly, this was to enable them to provide essential services. Again, this seems screwed up given how many Canadians were forced out of work.

Foreign students also received emergency benefits designed for Canadians, although the full extent of this is not yet published.

In January 2020, the G.T.A./IIRC started their program to give out permanent residencies to 500 people — and their families — who had overstayed their initial visas. This could be interpreted as an amnesty-for-illegals program, and we’ll have to see how much it expands.

IIRC also extended the Interim Federal Health Program, or IFHP, which is a plan that also covers so-called asylum claimants. This applies also to people who’ve illegally entered from

the United States. Some 14% of claimants in 2020 had entered the country illegally, primarily via Roxham Road.

There's also an initiative underway to bring in large numbers of people from Hong Kong, who claim to be fleeing persecution. Interesting, as Canada doesn't seem to be run much better these days.

The Rainbow Refugee Assistance Program is supposed to grow from 15 to 50. This is to resettle people alleging they are persecuted because of their questionable behaviours.

Canada also will allow people (women primarily) fleeing domestic violence to get a temporary permit, with a the possibility of becoming a permanent resident. There isn't any information given about whether the abuser will be deported.

There is, of course, the usual GBA+ nonsense in the report.

5. Continued Population Replacement

Source: IRCC, Chief Data Office (CDO), Permanent Residents Data as of March 31, 2021.

Ever get the sense that people are European descent are being replaced? It's no coincidence. The plan for decades has been to bring in large numbers of people from the 3rd World (mostly Asia and Africa), to remake society.

As usual, the top 3 are: (a) India; (b) China; and (c) The Philippines. No surprise that the enclaves in Canada are growing. More data from the recent census will be released later this year, and the results shouldn't be a shock to anyone.

6. Temporary Visitors To Canada

TRV = Temporary Resident Visa
eTA = Electronic Travel Authorization

YEAR	TRV Issued	eTA Issued	Totals
2016	1,347,898	2,605,077	3,952,975
2017	1,617,222	4,109,918	5,570,197
2018	1,898,324	4,125,909	6,024,233

2019	1,696,871	4,077,471	5,774,342
2020	257,330	648,789	906,119

Travelers entering Canada dropped by 85% in 2020, compared to 2019, according to the Government's data. Now, if we could just do that to visa holders, and make it permanent.

7. More "Inadmissibles" Let Into Canada

Broadly speaking, there are two provisions within IRPA, the Immigrant and Refugee Protection Act, that allow people who were previously deemed inadmissible to Canada to be given Temporary Resident Permits anyway. Here are the totals from the Annual Reports to Parliament on Immigration. Note: the first one listed only started in 2010.

Those allowed in under Rule 25.1(2) of IRPA

YEAR	TRP Issued	Cumulative
2010	17	17
2011	53	70
2012	53	123
2013	280	403
2014	385	788
2015	1,063	1,851
2016	596	2,447
2017	555	3002
2018	669	3,671
2019	527	4,198
2020	115	4,313

From 2010 to 2020, a total of 4,313 people who were otherwise inadmissible to Canada were allowed in anyway under Rule 25.1(2) of IRPA. This is the category that Global News previously reported on. As for the other one, under Rule 24(1) of IRPA, Global News leaves that out:

Year	Permits	Cumulative
2002	12,630	12,630
2003	12,069	24,699
2004	13,598	38,297
2005	13,970	52,267
2006	13,412	65,679
2007	13,244	78,923
2008	12,821	91,744

2009	15,640	107,384
2010	12,452	119,836
2011	11,526	131,362
2012	13,564	144,926
2013	13,115	158,041
2014	10,624	168,665
2015	10,333	178,998
2016	10,568	189,566
2017	9,221	198,787
2018	7,132	205,919
2019	6,080	211,999
2020	2,044	214,043

From 2002 to 2020 (inclusive), a total of 214,043 people previously deemed inadmissible to Canada were given Temporary Resident Permits anyway. This has almost certainly been going on for a lot longer, but is as far back as the reports go. Now let's consider the reasons these people are initially refused entry.

SEC = Security (espionage, subversion, terrorism)
HRV = Human or International Rights Violations
CRIM = Criminal
S.CRIM = Serious Criminal
NC = Non Compliance
MR = Misrepresentation

YEAR	Total	SEC	HRV	Crim	S.Crim	NC	MR
2002	12,630	?	?	?	?	?	?
2003	12,069	17	25	5,530	869	4,855	39

2004	13,598	12	12	7,096	953	4,981	20
2005	13,970	27	15	7,917	981	4,635	21
2006	13,412	29	20	7,421	982	4,387	18
2007	13,244	25	8	7,539	977	4,109	14
2008	12,821	73	18	7,108	898	4,170	17
2009	15,640	32	23	6,619	880	7,512	10
2010	12,452	86	24	6,451	907	4,423	36
2011	11,526	37	14	6,227	899	3,932	11
2012	13,564	20	15	7,014	888	5,206	18
2013	13,115	17	10	6,816	843	5,135	8
2014	10,624	12	2	5,807	716	3,895	14
2015	10,333	3	3	5,305	578	4,315	28
2016	10,568	8	4	4,509	534	2,788	20
2017	9,221	10	5	5,035	591	3,412	121
2018	7,132	5	3	4,132	559	2,299	131
2019	6,080	2	0	3,202	546	2,139	175
2020	2,044	2	1	666	131	1,000	37

In 2020, only 2,044 people barred were allowed in under Rule 24(1) of IRPA, which is the lowest it's been since this legislation was enacted. Nonetheless, ZERO of these people should be coming in.

Interestingly, even though the Government has wide discretion to let people into the country under 24(1) and 25.1(2) of IRPA, it chose not to use its discretion to prohibit anyone from entering.

Even if people are excluded from Canada — for a variety of valid reasons — often they will still be given temporary entrance into Canada. Will they ever leave? Who knows?

8. Students & Temporary Workers

There are also some other categories. Below are the “temporary” categories listed in the Annual Immigration Reports to Parliament. Now, let’s take a look at all of it in context. Data is compiled from the 2004 to 2021 Annual Reports (which cover the years of 2003 to 2020).

Year	Stu	TFWP	IMP	Total
2003	61,293	82,151	–	143,444
2004	56,536	90,668	–	147,204
2005	57,476	99,146	–	156,622
2006	61,703	112,658	–	174,361
2007	64,636	165,198	–	229,834
2008	79,509	192,519	–	272,028
2009	85,140	178,478	–	263,618
2010	96,157	182,276	–	278,433
2011	98,383	190,842	–	289,225
2012	104,810	213,573	–	318,383
2013	111,865	221,310	–	333,175

2014	127,698	95,086	197,924	420,078
2015	219,143	73,016	175,967	468,126
2016	265,111	78,402	207,829	551,342
2017	317,328	78,788	224,033	620,149
2018	356,876	84,229	255,034	696,139
2019	402,427	98,310	306,797	807,534
2020	256,740	84,609	242,130	583,452

Stu = Student Visa
TFWP = Temporary Foreign Worker Program
IMP = International Mobility Program

Even during a “global pandemic” there were still 583,452 international student and temporary worker visas issued. This does represent a drop of about 28% from the 807,534 that came in 2019. Still, this is a staggering large number.

There are, of course, a number of pathways to remain in Canada longer and/or transition in permanent residence. Let’s not pretend that they’re all leaving afterwards. In fact, recent changes have allowed students to remain in their home countries while collecting time towards a PR designation here.

9. Illegals Entering Via U.S./Canada Border

- Asylum claims by year – 2017

Asylum claims by year – 2017

Given the number of border interceptions currently being processed, there is a delay in asylum claims application information appearing in our system. As determinations are made that persons crossing the border are eligible to make an asylum claim, that information is entered into our system and is reflected in the asylum claims data that is published monthly to our website. Applications information is backdated, as appropriate, as it is entered into the system.

Therefore, the data posted to the IRCC website is considered preliminary and subject to change. Updated data for previous months is published to our website on a monthly basis as it becomes available and according to the monthly data release

Canada ends the Designated Country of Origin practice

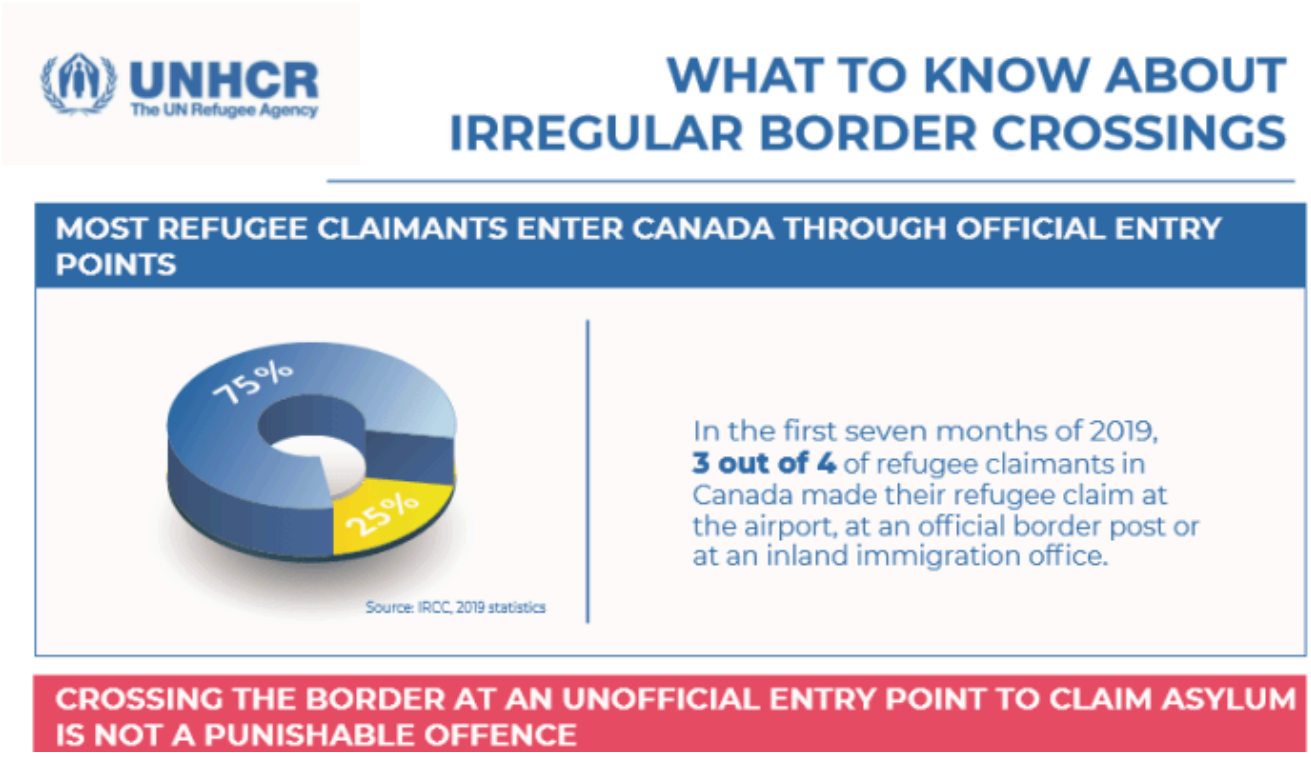
From: Immigration, Refugees and Citizenship Canada

News release

Canada removes all countries from the designated country of origin list

May 17, 2019—Ottawa, ON—The Government of Canada is committed to a well-managed asylum system that's fair, fast and final. Effective today, Canada is removing all countries from the designated country of origin (DCO) list, which effectively suspends the DCO policy, introduced in 2012, until it can be repealed through future legislative changes.

Claimants from the 42 countries on the DCO list were previously subject to a 6-month bar on work permits, a bar on



UNHCR
The UN Refugee Agency
WHAT TO KNOW ABOUT IRREGULAR BORDER CROSSINGS
MOST REFUGEE CLAIMANTS ENTER CANADA THROUGH OFFICIAL ENTRY POINTS
75%
25%
Source: IRCC, 2019 statistics
In the first seven months of 2019, 3 out of 4 of refugee claimants in Canada made their refugee claim at the airport, at an official border post or at an inland immigration office.
CROSSING THE BORDER AT AN UNOFFICIAL ENTRY POINT TO CLAIM ASYLUM IS NOT A PUNISHABLE OFFENCE

Although the report focused primarily on LEGAL immigration into Canada, the illegal brand is still worth talking about, since so few actually do. The United Nations gives detailed instructions and guidance on how to go about circumventing the border. The result, quite predictably, is that people keep trying to cross over.

Although not listed in the Annual Immigration Report to Parliament, this is worth a mention. Illegal crossings from the U.S. did drop quite drastically in the Spring of 2020. Of course, the Government had to play along and make this “pandemic” seem real. In recent months, however, it seems the numbers are creeping back up again.

Keep in mind, the text of the Safe Third Country Agreement requires both Canada and the U.S. to consult with the UNHCR on refugees, and to get input from NGOs. We haven’t had meaningful borders in a long time.

As a reminder: the Trudeau Government scrapped the DCO, or Designated Country of Origin, back in 2019. This would allow for claims from “safe” countries to be denied much more quickly. However, with things the way they are, it seems nowhere is really safe. While the issue was very mainstream from 2017 to 2019, it seems to have disappeared.

In June 2020, a new policy kicked in to finally track who is leaving the country. Even more strange that a Trudeau would bring it in when he did. Probably to make it harder for people fleeing his regime.

Overall, the replacement agenda slowed down in 2020, but it's about to be kicked back into overdrive. Not a good situation to be in.

ANTI-WHITE, BORDERS (CANADA), CANADA, GLOBALISM, IDENTITY/RELIGION, IMMIGRATION (CANADA), MEDIA, SUBVERSION, TRAFFICKING, SMUGGLING, CHILD EXPLOITATION, VOTING PROCESS, WARS
